

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Richard Hanley  
DOCKET NO.: 05-26518.001-R-1  
PARCEL NO.: 17-31-409-045-0000

The parties of record before the Property Tax Appeal Board are Richard Hanley, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, and the Cook County Board of Review.

The subject property consists of a 3,000 square foot parcel containing two improvements. Improvement A is a 113-year-old, two-story style multi-family dwelling of masonry construction. Containing 2,553 square feet of living area, the subject features three apartments. Improvement B is a one story single-family dwelling of masonry construction containing 685 square feet of living area. Only the assessment for Improvement A is under appeal. The subject is located in South Chicago Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style multi-family dwellings of frame or masonry construction from 115 to 135 years old. The comparables range in size from 2,000 to 3,080 square feet of living area with two or three apartments. The comparables have improvement assessments ranging from \$.56 to \$4.64 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$22,914, was disclosed. The record revealed that Improvement A has an improvement assessment of \$16,038, or \$6.28 per square foot of living area, while Improvement B has an improvement assessment of \$6,380 or \$9.31 per square foot of living area. In support of the subject's assessment, the board of review offered

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.: \$ 22,912  
TOTAL: \$ 24,856

property characteristic sheets and a spreadsheet detailing three suggested comparable properties located within the same coded assessment neighborhood as the subject. The comparables consist of two-story style multi-family dwellings of frame construction ranging in age from 114 to 118 years old. These properties range in size from 2,080 to 2,415 square feet of living area and each has two or three apartments. The comparables have improvement assessments ranging from \$6.14 to \$6.31 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds the comparables submitted by the appellant bear little similarity to the subject. The Board finds that all of the improvements substantially differ in size, construction type and amenities when compared to the subject. Therefore, the Board accords no weight to the appellant's comparables. As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

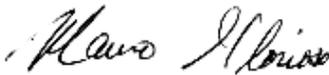

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
