

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Patrick Creighan
DOCKET NO.: 05-26530.001-R-1
PARCEL NO.: 13-07-315-036-0000

The parties of record before the Property Tax Appeal Board are Patrick Creighan, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, and the Cook County Board of Review.

The subject property consists of a 4,030 square foot parcel improved with a 51-year-old, one-story style single-family dwelling of frame and masonry construction. Containing 1,324 square feet of living area, the subject features one full bath, a basement, air conditioning, and a one-car garage. The subject is located in Jefferson Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of one-story or one and one-half story style single-family dwellings of frame or masonry construction from 29 to 70 years old. The comparables range in size from 1,296 to 1,590 square feet of living area. The comparables have one full bath; one has an additional half-bath and three have basements. The comparables have improvement assessments ranging from \$9.66 to \$11.20 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$21,637, or \$16.34 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of one-story style single-family dwellings of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,264
IMPR.: \$ 21,637
TOTAL: \$ 25,901

Subject only to the State multiplier as applicable.

frame and masonry construction. These properties range in size from 1,092 to 1,165 square feet of living area and one full bath and garages. One of the comparables has a basement and one has central air conditioning. The comparables have improvement assessments ranging from \$17.59 to \$18.54 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that three of the comparable properties are inferior in size and four are superior in size when compared to the subject. The Board also finds that three of the comparables have improvements that are superior in construction type; one is inferior in construction type; and four are inferior in amenities when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$16.34 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

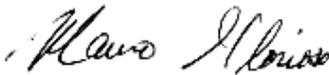

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
