

**Final Administrative Decision of the  
State of Illinois  
PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul C. Stefanos  
DOCKET NO.: 05-26595.001-R-1  
PARCEL NO.: 27-07-402-011-0000

The parties of record before the Property Tax Appeal Board are Paul C. Stefanos, the appellant(s), by attorney John P. Fitzgerald, of John P. Fitzgerald, Ltd; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 16,073  
**IMPR.:** \$ 97,059  
**TOTAL:** \$ 113,132

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a four-year-old, two-story, single-family dwelling of masonry construction containing 6,657 square feet of living area and located in Orland Township, Cook County. Features of the residence include four and one-half bathrooms, a full-finished basement, air-conditioning, three fireplaces and a three and one-half car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted black and white photographs as well as Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry or frame and

masonry construction with the same neighborhood code as the subject. Two comparables are located on the same street and block as the subject. The improvements range in size from 5,703 to 6,370 square feet of living area and range in age from six to twelve years. The comparables contain three and one-half or four full bathrooms, a full-finished basement, air-conditioning, one or four fireplaces and a multi-car attached garage. The improvement assessments range from \$14.59 to \$15.63 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$113,132. The subject's improvement assessment is \$97,059 or \$14.58 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry or frame and masonry construction located on the same street and within one block of the subject. The improvements range in size from 5,260 to 6,085 square feet of living area and range in age from four to twelve years. The comparables contain four, four and one-half or five full bathrooms, a full-finished basement, air-conditioning, one or two fireplaces and a multi-car attached garage. The improvement assessments range from \$14.59 to \$18.25 per square foot of living area. The appellant's comparable two and the board of review's comparable three are the same property. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables and the board of review's comparables one and three to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$14.59 to \$15.63 per square foot of living area. The subject's per square foot improvement assessment of \$14.58 falls below the range established by these properties. The Board finds the board's one remaining comparable less similar to the subject in improvement size. After considering adjustments and the

differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
