

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Paul Zulkie  
DOCKET NO.: 05-26754.001-R-1  
PARCEL NO.: 05-08-319-022-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Paul Zulkie, the appellant, by attorneys Leslie Hedges and Joseph Huang with the Law Offices of Terrence Kennedy, Jr. in Chicago, and the Cook County Board of Review (board).

The subject property consists of a 91-year-old, two-story, single-family dwelling of stucco construction containing 4,546 square feet of living area and located in New Trier Township, Cook County. Features of the residence include three and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car detached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on six properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the six suggested comparables consist of two-story, single-family dwellings of stucco, masonry, frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,901 to 4,921 square feet of living area and range in age from 63 to 92 years. The comparables contain from two and one-half to four and one-half bathrooms, a partial or full-unfinished basement and from one to three fireplaces. Five comparables contain air-conditioning as well as a two-car garage. The improvement assessments range from \$17.83 to \$19.84 per square foot of living area.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 41,679  
IMPR.: \$ 91,321  
TOTAL: \$ 133,000

Subject only to the State multiplier as applicable.

PTAB/rfd6357

At hearing, the appellant's attorneys argued that the appellant's comparables are similar to the subject and should be considered as such by the PTAB. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$157,999. The subject's improvement assessment is \$116,320 or \$25.59 per square foot of living area. In support of the assessment, the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The three suggested comparables are improved with two-story, single-family dwellings of stucco, masonry, or frame construction with the same neighborhood code as the subject. The improvements range in size from 2,472 to 2,729 square feet of living area and range in age from 80 to 91 years. The comparables contain two and one-half or three and one-half bathrooms, a full-unfinished basement, one or two fireplaces and a multi-car garage. Two comparables contain air-conditioning. The improvement assessments range from \$25.96 to \$26.85 per square foot of living area.

At hearing, the board's representative indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

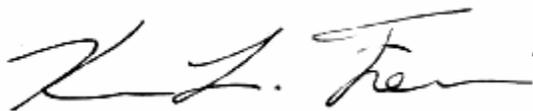

The PTAB finds the appellant's comparables to be the most similar properties to the subject in the record. These six properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$17.83 to \$19.84 per square foot of living area. The subject's per square foot improvement assessment of \$25.59 falls above the range established by these properties. The board's comparables are accorded less weight because they differ from the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the PTAB finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
