

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Grazyna Kupiec
DOCKET NO.: 05-26990.001-R-1
PARCEL NO.: 13-08-224-007-0000

The parties of record before the Property Tax Appeal Board are Grazyna Kupiec, the appellant, by attorney Stephanie Park of Chicago and the Cook County Board of Review.

The subject property consists of a 3,750 square foot parcel improved with an 80-year-old, one and one-half story style multi-family dwelling of frame construction. Containing 1,840 square feet of living area, the subject features two apartments, a full unfinished basement, and a one-car garage. The subject is located in Jefferson Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing 12 suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style multi-family dwellings of frame or masonry construction from 46 to 98 years old. The comparables range in size from 1,760 to 2,120 square feet of living area with two full baths; six have full or partial finished or unfinished basements; two are air conditioned; and eleven have garages. The comparables have improvement assessments ranging from \$10.80 to \$12.44 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$23,925, or \$13.12 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of 80 or 84 year old, one and one-half story

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,440
IMPR.:	\$	23,925
TOTAL:	\$	28,365

Subject only to the State multiplier as applicable.

style multi-family dwellings of frame construction. These properties range in size from 1,465 to 1,747 square feet of living area and each has two apartments and garages; two have full basements; and one is air conditioned. The comparables have improvement assessments ranging from \$14.35 to \$15.86 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted 15 properties as comparable to the subject. The Board accords substantial weight to the properties submitted by the board of review. The Board finds that the board of review's properties are the same style and construction type as the subject. Further, the Board finds that these properties have amenities commensurate with the subject's amenities. The Board accords the appellant's properties substantially less weight. The Board finds that the appellant's comparables differ in style when compared to the subject. Additionally, the Board finds the appellant's comparables differ to varying degrees in construction type, size, and amenities when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$13.12 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
