

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patty Tydd
DOCKET NO.: 05-27126.001-R-1
PARCEL NO.: 32-06-402-035-0000

The parties of record before the Property Tax Appeal Board are Patty Tydd, the appellant(s), by attorney Arnold G. Siegel of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,963
IMPR.: \$ 19,148
TOTAL: \$ 23,111

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a four-year-old, two-story, single-family dwelling of frame construction containing 1,824 square feet of living area and located in Bloom Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement, central air-conditioning, a fireplace and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on nine properties suggested as comparable to the subject. Based on the appellant's documents, the nine suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction located within six blocks of the subject. The improvements range in size from 1,633 to 1,900 square feet of living area and range

in age from 12 to 55 years. The comparables contain one and one-half, two or two and one-half bathrooms and a finished or unfinished basement. Seven comparables contain central air-conditioning, four comparables have a fireplace and eight comparables contain a one-car or two-car garage. The improvement assessments range from \$6.35 to \$8.35 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$23,111. The subject's improvement assessment is \$19,148 or \$10.50 per square foot of living area. In addition, the board of review provided a copy of the subject's property characteristic printout as well as copies of documentation from the board of review level complaint file. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a one-page letter arguing that the appellant provided nine comparable properties identical to the subject in neighborhood and class and support a reduction in the subject's improvement assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant submitted nine comparable properties similar to the subject in improvement size, design, amenities and location and have improvement assessments ranging from \$6.35 to \$8.35 per square foot of living area. The subject's per square foot improvement assessment of \$10.50 falls above the range established by these properties. However, along with other differences, the Board finds the appellant's comparables to be vastly inferior to the subject in age. One of the suggested comparables is twelve years old but the remaining eight properties range in age from 29 to 55 years. After considering adjustments for age, and the differences in the appellant's suggested comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
