

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jack Gore
DOCKET NO.: 06-00762.001-R-1
PARCEL NO.: 16-29-210-019

The parties of record before the Property Tax Appeal Board are Jack Gore, the appellant, by attorney Melissa K. Whitley of Marino & Associates, P.C. in Chicago; and the Lake County Board of Review.

The subject property consists of a one-story style frame dwelling built in 1956 that contains 1,222 square feet of living area. Features of the home include one fireplace, a 330 square foot garage and a full unfinished basement.

The appellant, through counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis of four comparable properties located in close proximity to the subject. The comparables consist of one, tri-level, two, split-level, and one, one-story brick or frame and brick dwellings that were built from 1956 to 1966 and range in size from 1,508 to 1,970 square feet of living area. Two of the comparables have central air-conditioning and one has a fireplace. They have garages ranging from 280 to 576 square feet of building area. These properties have improvement assessments ranging from \$61,948 to \$77,240 or from \$36.38 to \$41.55 per square foot of living area. The subject has an improvement assessment of \$55,880 or \$45.73 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$115,198 was disclosed. In support of the subject's improvement assessment, the board of review submitted a summary argument, property record cards and a grid analysis of three comparable properties located in the subject's neighborhood. The comparables consist of one-story style brick and frame dwellings built in 1956 and contain 1,170 square feet of living area. Two of the comparables have central air-conditioning and each has a full unfinished basement

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Lake County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	59,318
IMPR.:	\$	55,880
TOTAL:	\$	115,198

Subject only to the State multiplier as applicable.

and a detached garage ranging from 308 to 440 square feet of building area. These properties have improvement assessments ranging from \$54,323 to \$57,800 or from \$46.43 to \$49.40 per square foot of living area.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the parties submitted seven comparables for its consideration. The Board finds the appellant's comparables #1, #2 and #3 are dissimilar to the subject in design. Further, the appellant's comparable #4 did not contain a basement like the subject. Therefore, these comparables received reduced weight in the Board's analysis. The Board finds the board of review's comparables were generally similar to the subject in most respects. These most representative comparables had improvement assessments ranging from \$46.43 to \$49.40 per square foot of living area, which support the subject's improvement assessment of \$45.73 per square foot.

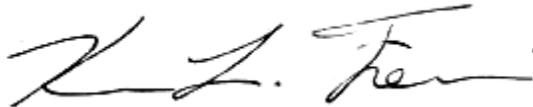

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

In conclusion, the Board finds the appellant failed to establish unequal treatment in the assessment process by clear and convincing evidence and the subject improvement assessment as established by the board of review is correct.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
