

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nella Ferrara Davy
DOCKET NO.: 06-20034.001-R-1
PARCEL NO.: 15-01-111-066-0000

The parties of record before the Property Tax Appeal Board are Nella Ferrara Davy, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,140
IMPR.: \$ 52,244
TOTAL: \$ 65,384

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 9,955 square foot parcel improved with a 60-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,632 square feet of living area and located in River Forest Township, Cook County. Features of the residence include two and one-half bathrooms, a full-finished basement, central air-conditioning, two fireplaces and a one and one-half car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the

appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction located within several blocks of the subject. The improvements range in size from 2,319 to 3,672 square feet of living area and range in age from 53 to 58 years. The comparables contain two or two and one-half bathrooms, a partial or full-unfinished basement, central air-conditioning, one or two fireplaces and a one-car or two-car attached garage. The improvement assessments range from \$17.25 to \$18.29 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$65,384. The subject's improvement assessment is \$52,244 or \$19.85 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction located within one-quarter mile of the subject. The improvements range in size from 2,274 to 2,521 square feet of living area and range in age from 52 to 56 years. The comparables contain from one and one-half to four full bathrooms, a partial or full-finished basement, central air-conditioning, one or two fireplaces and a one-car or two-car garage. The improvement assessments range from \$20.32 to \$21.21 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the

assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparable two and board of review's comparables to be the most similar properties to the subject in the record. These five properties are similar to the subject in improvement size, amenities, age, design and location and have improvement assessments ranging from \$17.25 to \$21.21 per square foot of living area. The subject's per square foot improvement assessment of \$19.85 falls within the range established by these properties. The Board finds the appellant's remaining comparables less similar to the subject in size and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
