

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Samson Aigbokhai  
DOCKET NO.: 06-20133.001-R-1  
PARCEL NO.: 11-31-223-034-0000

The parties of record before the Property Tax Appeal Board are Samson Aigbokhai, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 34-year old, two-story style townhouse of frame and masonry construction containing 1,677 square feet of living area with a full, finished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted for consideration three comparable properties described as one-story or two-story masonry dwellings that are between 41 and 49 years old. On the appellant's map, one of the comparables is located two blocks from the subject property, while the other two are located approximately one-half mile away. The comparables contain from 1,298 to 1,360 square feet of living area and have improvement assessments ranging from \$7.25 to \$7.82 per square foot. The subject's improvement assessment is \$11.23 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented four comparable properties consisting of two-story frame and masonry townhouses that are either 34 or 35 years old. One of the comparables is part of the same townhouse as the subject property, and two of the other comparables, located in the same tax block as the subject property, are also part of the same townhouse. Another comparable is located three blocks from the subject property. The dwellings contain from 1,576 to 1,678 square feet of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	9,685
IMPR.:	\$	18,839
TOTAL:	\$	28,524

area and have improvement assessments ranging from \$11.62 to \$13.81 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

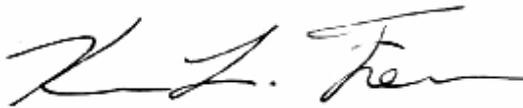

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the range established by the most similar comparables contained in this record is \$11.62 to \$13.81 per square foot of living area. The subject's improvement assessment of \$11.23 per square foot of living area falls below this range. The comparables submitted by the board of review were the most similar to the subject in age, location, and physical characteristics. These comparables received the greatest weight in the Board's analysis. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
