

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Timothy Roberts
DOCKET NO.: 06-20219.001-R-1
PARCEL NO.: 01-01-108-003

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Timothy Roberts, the appellant, by attorney Julie Realmuto with the law firm of McCarthy & Duffy in Chicago and the Cook County Board of Review.

The subject property consists of an 11,497 square foot parcel of land containing a 104-year old, two-story, frame, single-family dwelling. The improvement contains 2,418 square feet of living area, two baths, air conditioning, and a full, unfinished basement. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions of four properties suggested as comparable to the subject. Black and white photographs of the subject property and the suggested comparables and a brief from the appellant's attorney were also submitted. The data in its entirety reflects that the properties are located within the subject's neighborhood and are improved with a two-story, frame, single-family dwelling with two or three and one-half baths. In addition, three properties contain a partial or full basement; two properties contain a fireplace and one property contains air conditioning. The improvements range: in age from 89 to 126

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 7,817
IMPR.:	\$ 34,045
TOTAL:	\$ 41,862

years; in size from 2,372 to 3,008 square feet of living area; and in improvement assessments from \$12.37 to \$14.67 per square foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$53,764, or \$22.23 per square feet of living area. The board's grid indicates the subject property sold on August 1, 2004 for \$950,000. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule 1910.65(b)*. Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has met this burden and that a reduction is warranted.

The appellant presented assessment data on a total of four equity comparables. The PTAB finds the appellant's comparables similar to the subject. These four comparables contain a two-story, frame, single-family dwelling located within the subject's neighborhood. The improvements range: in age from 89 to 126 years; in size from 2,372 to 3,008 square feet of living area; and in improvement assessments from \$12.37 to \$14.67 per square foot of living area. In comparison, the subject's improvement assessment of \$22.23 per square foot of living area falls above the range established by these comparables. The PTAB accorded less weight to the board of review's evidence as it did not present any assessment information.

As a result of this analysis, the PTAB further finds that the appellant has adequately demonstrated that the subject's

improvement was inequitably assessed by clear and convincing evidence and that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
