

**Final Administrative Decision of the  
State of Illinois  
PROPERTY TAX APPEAL BOARD**

APPELLANT: John Orr  
DOCKET NO.: 06-20765.001-R-1  
PARCEL NO.: 23-30-401-020-0000

The parties of record before the Property Tax Appeal Board are John Orr, the appellant(s), by attorney John P. Fitzgerald, of John P. Fitzgerald, Ltd; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 6,969  
**IMPR.:** \$ 51,253  
**TOTAL:** \$ 58,222

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a four-year-old, one-story, single-family dwelling of masonry construction containing 2,946 square feet of living area and located in Palos Township, Cook County. Features of the residence include one and one-half bathroom, a full-unfinished basement, air-conditioning, a fireplace and a three-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of one-story, single-family dwellings of frame or frame and masonry construction located within the subject's neighborhood. The improvements range in size from 2,174 to 4,523 square feet of living area and range in age from 19 to 53 years. The comparables contain two or three

full bathrooms. No garage or basement descriptions were provided. The improvement assessments range from \$8.42 to \$13.45 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$58,222. The subject's improvement assessment is \$51,253 or \$17.40 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,251 to 3,027 square feet of living area and range in age from seven to 27 years. The comparables contain three or three and one-half bathrooms, a full-finished or unfinished basement, one or two fireplaces and a two-car or three-car garage. Two comparables have air-conditioning. The improvement assessments range from \$17.32 to \$25.47 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of six properties similar to the subject in design and location but with many variations in size of living area, exterior construction, amenities and/or age. These six properties have improvement assessments ranging from \$8.42 to \$25.47 per square foot of living area. The subject's per square foot improvement assessment of \$17.40 falls within the range established by these properties. However, the Board finds of the six properties offered for comparison, five vary greatly from the subject in size of living area, two vary significantly in age and three vary in amenities as well as exterior construction. After considering adjustments, and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
