ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tony Armando
DOCKET NO.: 06-20817.001-R-1
PARCEL NO.: 01-22-103-013-0000

The parties of record before the Property Tax Appeal Board are Tony Armando, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 49,052
IMPR.: \$ 107,543
TOTAL: \$ 156,595**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 7,160 square feet of living area. The dwelling is one years old. Features of the home include a partial, finished basement, central air conditioning, two fireplaces, and a four-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 15 to 21 years old. According to the appellant, the comparables are located one or two blocks from the subject property. The comparable dwellings range in size from 5,032 to 6,514 square feet of living area. Two comparables have full, unfinished basements, and one has a partial, finished basement. Each dwelling has central air conditioning, two or three fireplaces, and a garage, either three-car or three and one-half car. The comparables have improvement assessments ranging from \$9.87 to \$13.83 per square foot of living area. The subject's improvement assessment is \$15.02 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story masonry dwellings that are either four or five years old. The comparables have the same neighborhood code as the subject property, but, based on their parcel index numbers, they are not located near the subject. The dwellings range in size from 6,061 to 6,631 square feet of living area. Two comparables have full, finished basements, and one has a full, unfinished basement. Each comparable has central air conditioning, two or three fireplaces, and a four-car garage. These properties have improvement assessments ranging from \$16.89 to \$16.97 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of six equity comparables. Although the appellant's comparables were located near the subject, they were substantially older than the subject. In addition, the appellant's comparables numbered one and three were much smaller than the subject, and comparable one differed in exterior construction. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in age. They were also very similar in style, exterior construction and features, and they were generally similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$16.89 to \$16.97 per square foot of living area. The subject's improvement assessment of \$15.01 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
