

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vincent Lemler
DOCKET NO.: 06-20873.001-R-1
PARCEL NO.: 15-01-411-002-0000

The parties of record before the Property Tax Appeal Board are Vincent Lemler, the appellant, by attorney Glenn S. Guttman, of Rieff Schramm & Kanter in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 15,641
IMPR.: \$ 67,114
TOTAL: \$ 82,755

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 3,344 square feet of living area. The dwelling is 79 years old. Features of the home include a full, finished basement, a fireplace and a two and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on eight comparable properties described as two-story frame, masonry or frame and masonry dwellings that are between 79 and 90 years old. The comparable dwellings range in size from 3,216 to 3,680 square feet of living area. The comparables have full basements, one of which is finished, two of the comparables have central air conditioning, seven have a fireplace and each has a garage. The comparables are located in the same neighborhood as the subject. The comparables have improvement assessments ranging from \$12.09 to \$17.43 per square foot of living area. The subject's improvement assessment is \$20.07 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story masonry dwellings that are between 66 and 78 years old. The dwellings range in size from 3,054 to 3,426 square feet of living area. The comparables have full basements, one of which is finished, two have central air conditioning and each has one or two fireplaces and a garage. The comparables have the same assessor assigned neighborhood code as the subject property. These properties have improvement assessments ranging from \$20.11 to \$20.46 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant claimed he provided more comparables than the board of review and they were more proximate in location than the board of review's comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables five and seven differed from the subject in exterior construction. Thus, these comparables received reduced weight in the Board's analysis. The appellant's remaining comparables and the comparables submitted by the board of review were similar to the subject in design, exterior construction, age, size, foundation and location. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$12.09 to \$20.46 per square foot. The subject's improvement assessment of \$20.07 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
