

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Leon Szymanski
DOCKET NO.: 06-21071.001-R-1
PARCEL NO.: 28-28-102-050-0000

The parties of record before the Property Tax Appeal Board are Leon Szymanski, the appellant, and the Cook County Board of Review.

The subject property consists of a thirteen-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,129 square feet of living area and located in Bremen Township, Cook County. Features of the home include two and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a three-car attached garage.

The appellant appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs, location maps and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables. Based on the appellant's documents, the four suggested comparables consist of two-story, sixteen-year-old, single-family dwellings of frame and masonry construction located within three blocks of the subject. The improvements range in size from 2,330 to 3,625 square feet of living area. The comparables contain two and one-half or three full bathrooms, a two-car or three-car attached garage, a fireplace and a full-unfinished basement. Three comparables have air-conditioning. The improvement assessments range from \$7.08 to \$7.41 per square foot of living area.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,948
IMPR.: \$ 17,110
TOTAL: \$ 24,058

Subject only to the State multiplier as applicable.

PTAB/rfd5648

At hearing, the appellant asserted that the appellant's comparables are similar to the subject and should be considered as such by the Property Tax Appeal Board. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$24,058. The subject's improvement assessment is \$17,110 or \$8.04 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,339 to 2,381 square feet of living area and range in age from nine to sixteen years. The comparables contain two or two and one-half bathrooms, a partial or full-unfinished basement, a fireplace and a multi-car attached garage. Two comparables contain air-conditioning. The improvement assessments range from \$8.21 to \$9.59 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age, amenities and location and indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

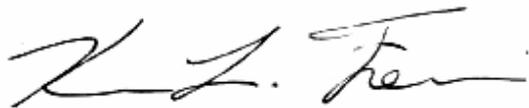

The Board finds the appellant's comparable one and the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location have improvement assessments ranging from \$7.10 to \$9.59 per square foot of living area. The subject's per square foot improvement assessment of \$8.04 falls within the range established by these properties. The Board finds the appellant's three remaining comparables significantly larger in living area as compared to the subject and therefore, accorded less weight. After

considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
