

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Harry Harris
DOCKET NO.: 06-21149.001-R-1
PARCEL NO.: 31-22-101-013-0000

The parties of record before the Property Tax Appeal Board are Harry Harris, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,133
IMPR.: \$ 13,751
TOTAL: \$ 17,884

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a multi-level dwelling of frame and masonry construction containing 1,396 square feet of living area. The dwelling is 25 years old. Features of the home include a partial basement with a recreation room, central air conditioning, a fireplace and a two-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties. Comparables 1 through 4 are described as multi-level dwellings of frame or frame and masonry dwellings that range in age from 32 to 40 years old. Each comparable has a partial basement, two have central air conditioning and one comparable has a fireplace. The three remaining comparables have limited descriptions such as property index number, classification code, neighborhood code, assessment information, square foot of living area and building value per square foot. The comparable dwellings range in size from 1,403 to 1,723 square feet of living area. The comparables have improvement assessments ranging from \$7.37 to \$7.89 per square foot of living area. The subject's improvement assessment is \$9.85 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of multi-level dwellings of frame and masonry construction that range in age from 23 to 27 years old. The dwellings range in size from 1,398 to 1,403 square feet of living area. Each comparable has a partial basement with a recreation room, central air conditioning, one fireplace and a two-car attached garage. These properties have improvement assessments ranging from \$10.11 to \$10.22 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in size, age, exterior construction and features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$10.11 to \$10.22 per square foot of living area. The subject's improvement assessment of \$9.85 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
