

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alan Pavlas
DOCKET NO.: 06-21235.001-R-1
PARCEL NO.: 16-29-204-003-0000

The parties of record before the Property Tax Appeal Board are Alan Pavlas, the appellant(s), by attorney Lawrence B. Brodsky, of Rieff Schramm & Kanter in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,858
IMPR.: \$ 25,513
TOTAL: \$ 30,371

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 50-year-old, two-story, mixed-use building of masonry construction containing 3,600 square feet of building area and located in Cicero Township, Cook County. Features of the building include one and one-half bathroom, a partial-unfinished basement and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on six properties suggested as comparable to the subject. Based on the appellant's documents, the six suggested comparables consist of two-story, mixed-use buildings of masonry construction located on the same street and within two blocks of the subject. The improvements range in size from 3,828 to 4,644 square feet of building area and range in age from 82 to 93 years. The comparables contain from one and one-half to three full bathrooms and a partial-unfinished basement.

Three comparables contain central air-conditioning and two comparables have a two-car detached garage. The improvement assessments range from \$4.86 to \$5.92 per square foot of building area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$30,371. The subject's improvement assessment is \$25,513 or \$7.09 per square foot of building area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 75 or 84-year-old, mixed-use buildings of masonry construction with the same neighborhood code as the subject. One of the comparables is located on the same street and block as the subject. The improvements range in size from 3,250 to 3,540 square feet of building area. The comparables contain one and one-half or three and one-half bathrooms and a partial-unfinished basement. Two comparables contain a multi-car detached garage. The improvement assessments range from \$7.37 to \$7.71 per square foot of building area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, amenities and location and have improvement assessments ranging from \$7.37 to \$7.71 per square foot of building area. The subject's per square foot improvement assessment of \$7.09 falls below the range established by these properties. The Board finds the appellant's comparables significantly larger overall to the subject in size and accorded less weight. The Board also finds all of the comparables submitted by both parties inferior to the subject in age. After considering adjustments for size and age, as well as other differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
