

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Perl
DOCKET NO.: 06-21239.001-R-1
PARCEL NO.: 10-25-332-032-0000

The parties of record before the Property Tax Appeal Board are Michael Perl, the appellant(s), by attorney Howard W. Melton, of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,488
IMPR.: \$ 27,227
TOTAL: \$ 34,715

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 4,007 square foot parcel improved with a 55-year-old, two-story, single-family dwelling of masonry construction containing 1,396 square feet of living area and located in Rogers Park Township, Cook County. Features of the residence include one and one-half bathroom, a full-unfinished basement and central air-conditioning.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry construction located on the same street and block as the subject. The improvements range in size from 1,589 to 1,757 square feet of living area and range in age from 52 to 56 years old. The comparables contain one and one-half

or two and one-half bathrooms, central air-conditioning and a full-finished or unfinished basement. Two comparables have a two-car detached garage. The improvement assessments range from \$17.30 to \$19.90 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$47,643. The subject's improvement assessment is \$40,155 or \$28.76 per square foot of living area. In addition, the board of review provided a copy of the subject's property characteristic printout as well as copies of documentation from the board of review level complaint file. The board's evidence disclosed that the subject property sold in August 2004 for \$475,000. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's four comparables to be similar properties to the subject in many respects. They are similar to the subject in improvement size, design, age, exterior construction and amenities. In addition, they are located on the same street and block as the subject and have improvement assessments ranging from \$17.30 to \$19.90 per square foot of living area. The subject's per square foot improvement assessment of \$28.76 falls above the range established by these properties. The Board further finds the board of review's evidence fails to address the appellant's inequity argument. After considering adjustments and the differences in the appellant's suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
