

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Emil Bertolozzi
DOCKET NO.: 06-21360.001-R-1
PARCEL NO.: 09-21-302-073-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Emil Bertolozzi, the appellant, by attorney Joseph G. Kusper of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property consists of a 31-year-old, one-story, class 2-04 dwelling of masonry construction containing 3,227 square feet of living area and located in Maine Township, Cook County. The residence includes three and one half bathrooms, a partial basement, air conditioning, a fireplace and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within one block of the subject. These properties consist of one story class 2-04 or two-story class 2-78 dwellings of masonry or frame and masonry construction, and range in age from 27 to 52 years. The comparables include two or three bathrooms with some half baths, one with a finished partial basement, all with air conditioning and fireplaces. The comparables have two or three-car garages. The comparables contain between 2,777 and 4,464 square feet of living area and have improvement assessments ranging from \$25,566 to \$34,227 or from \$7.67 to \$9.76 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$36,771, or \$11.39 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered three suggested comparable class 2-04 properties located within a block of the subject. The comparables consist of one-story dwellings of masonry construction. The comparables range in age from 31 to 44 years and have full or partial basements, one finished. The comparables have three and one half bathrooms, all with air conditioning, fireplaces and all have two or four-

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR. \$29,081
TOTAL: \$52,000

car garages. The comparable properties contain between 2,847 and 3,263 square feet of living area with improvement assessments of between \$31,900 and \$34,720 or from \$10.28 to \$11.20 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The PTAB finds the board's three comparables and the appellant's comparable two are similar to the subject but with some differences in living area and construction materials. These properties have improvement assessments ranging from \$9.21 to \$11.20 per square foot of living area. The subject's per square foot improvement assessment of \$11.39 is above this range of properties. The PTAB gives less weight to the remaining comparables because they are less similar to the subject in living area or building classification. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is sufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
