

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nick Boudos
DOCKET NO.: 06-21375.001-R-1
PARCEL NO.: 16-07-311-013-0000

The parties of record before the Property Tax Appeal Board are Nick Boudos, the appellant, by attorney Edward Larkin, of Larkin & Larkin of Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,209
IMPR.: \$ 45,895
TOTAL: \$ 55,104

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 3,594 square feet of living area. The dwelling is 112 years old. Features of the home include a concrete slab foundation and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story masonry dwellings that are between 82 and 89 years old. The comparable dwellings range in size from 4,215 to 5,778 square feet of living area. Each of the comparables has a full, unfinished basement and one has a two-car garage. The comparables have improvement assessments ranging from \$10.21 to \$10.86 per square foot of living area. The subject's improvement assessment is \$12.77 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that are between 96 and 122 years old. The

dwellings range in size from 3,252 to 3,570 square feet of living area. Each of the comparables has a full, unfinished basement, two have central air conditioning, three have one or two fireplaces and each has a garage. These properties have improvement assessments ranging from \$14.15 to \$16.07 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant noted differences between the subject and the comparables submitted by the board of review with respect to foundation and amenities.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the appellant were significantly larger than the subject and also differed from the subject in exterior construction and age. Each had a full basement, while the subject had none. Thus, these comparables received reduced weight. The comparables submitted by the board of review were similar to the subject in design, exterior construction, age and size. They had full basements, while the subject has none. However, they were assessed for more on a square foot basis than the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$14.15 to \$16.07 per square foot. The subject's improvement assessment of \$12.77 per square foot of living area is well below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
