

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Edward Rogowski
DOCKET NO.: 06-21690.001-R-1
PARCEL NO.: 09-35-404-019-0000

The parties of record before the Property Tax Appeal Board are Edward Rogowski, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with a 79-year old, one-story style dwelling of masonry construction containing 1,019 square feet of living area with a full, finished basement, central air conditioning, and a fireplace.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties. On the grid analysis, four are described as one or one and one-half story frame or masonry dwellings that range in age from 48 to 116 years old. Three comparables had no detailed description provided other than classification and neighborhood codes, size, and improvement assessment. The seven comparable dwellings range in size from 1,005 to 1,260 square feet of living area. These properties have improvement assessments ranging from \$16.32 to \$19.00 per square foot of living area. The subject's improvement assessment is \$22.57 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry dwellings that range in age from 81 to 89 years old. The dwellings range in size from 1,036 to 1,122 square feet of living area. These properties have improvement assessments ranging from \$23.52 to \$25.39 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	8,849
IMPR.:	\$	23,001
TOTAL:	\$	31,850

Subject only to the State multiplier as applicable.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds that a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The appellant's comparables numbered five, six, and seven received little weight in the Board's analysis, because the appellant did not provide enough information to indicate whether they were actually comparable to the subject property. The appellant's comparables numbered one through three differed substantially from the subject in age, and comparables three and four differed in exterior construction. As a result, the appellant's comparables numbered one through four received reduced weight in the Board's analysis. The Board finds that the comparables submitted by the board of review were the most similar to the subject in age, size, design, and exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$23.52 to \$25.39 per square foot of living area. The subject's improvement assessment of \$22.57 per square foot of living area falls below this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
