

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Keith Bakken
DOCKET NO.: 06-22122.001-R-1
PARCEL NO.: 09-22-401-004-0000

The parties of record before the Property Tax Appeal Board are Keith Bakken, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 56-year old, one and one-half story style dwelling of frame and masonry construction containing 1,319 square feet of living area with a partial, finished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted for consideration seven comparable properties. On the grid analysis, four properties are described as one-story or one and one-half story masonry or frame and masonry dwellings that are between 42 and 77 years old. Three comparables had no detailed description provided other than classification and neighborhood codes, size, and improvement assessment. The seven comparables contain from 1,379 to 1,575 square feet of living area and have improvement assessments ranging from \$14.81 to \$16.42 per square foot. The subject's improvement assessment is \$26.22 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review Notes on Appeal" without any equity evidence in support of its assessed valuation of the subject property. The board of review failed to address the appellant's equity evidence when it submitted only the October 2003 sale price of the subject property.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	7,713
IMPR.:	\$	21,051
TOTAL:	\$	28,764

Subject only to the State multiplier as applicable.

Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the only evidence pertaining to the uniformity of the subject's improvement assessment was submitted by the appellant who provided data on four comparables. The comparables numbered two and four by the appellant differed from the subject in age, exterior construction, and/or size. As a result, these comparables received reduced weight in the Board's analysis. The comparables numbered one and three by the appellant were the most similar to the subject in age, exterior construction, and size. The range established by these comparables is \$14.81 to \$15.78 per square foot of living area. The appellant's evidence disclosed the subject had an improvement assessment of \$34,587 or \$26.22 per square foot of living area, which is well above the range established by the comparables. The board of review did not submit any equity evidence to refute the evidence presented by the appellant. The Board has examined the information submitted by the appellant and finds, based on this evidence that was not refuted, a reduction in the assessed valuation of the subject property's improvement is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
