

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alon Melamed
DOCKET NO.: 06-22293.001-R-1
PARCEL NO.: 10-33-216-038-0000

The parties of record before the Property Tax Appeal Board are Alon Melamed, the appellant(s), by attorney Mitchell L. Klein, of Schiller Klein PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,672
IMPR.: \$ 30,591
TOTAL: \$ 40,263

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 49-year-old, one-story, single-family dwelling of masonry construction containing 1,854 square feet of living area and located in Niles Township, Cook County. Features of the residence include one full bathroom, a full-finished basement, central air-conditioning, two fireplaces and a one-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,985 to 2,196 square feet of living area and

range in age from 47 to 50 years. The comparables contain two or two and one-half bathrooms, a finished or unfinished basement and central air-conditioning. Two comparables have a fireplace as well as a two-car attached garage. The improvement assessments range from \$15.53 to \$16.56 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$43,207. The subject's improvement assessment is \$33,535 or \$18.09 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story, 54 or 59-year-old, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements contain 1,864 and 1,918 square feet of living area. The comparables contain one and one-half or two full bathrooms, an unfinished basement, central air-conditioning and a one-car or two-car garage. One comparable has a fireplace. The improvement assessments are \$16.75 and \$17.04 per square foot of living area, respectively. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a one-page letter disclosing that the six comparables submitted by both parties have a lower assessment per square foot than the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

Both parties presented assessment data on a total of six equity comparables. The Board finds these six properties similar to the subject in improvement size, age, design and location and have improvement assessments ranging from \$15.53 to \$17.04 per square foot of living area. The subject's per square foot improvement assessment of \$18.09 falls above the range established by these properties. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is inequitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
