

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Federighi
DOCKET NO.: 06-22322.001-R-1
PARCEL NO.: 09-34-400-112-0000

The parties of record before the Property Tax Appeal Board are William Federighi, the appellant(s), by attorney Anthony M. Farace, of Amari & Locallo of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 20,617
IMPR.: \$ 96,049
TOTAL: \$ 116,666

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a two-year-old, two-story, single-family dwelling of masonry construction containing 6,120 square feet of living area and located in Maine Township, Cook County. Features of the residence include five full bathrooms, two half-baths, a full-finished basement, central air-conditioning, two fireplaces and a three-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction located outside the subject's neighborhood code. The comparables' proximity to the subject was not disclosed. The improvements

range in size from 5,070 to 6,979 square feet of living area and range in age from four to 46 years. The comparables contain from four to seven bathrooms, a finished or unfinished basement, from one to three fireplaces, central air-conditioning and a multi-car attached garage. The improvement assessments range from \$11.81 to \$13.44 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$116,666. The subject's improvement assessment is \$96,049 or \$15.69 per square foot of living area. In addition, the board of review provided a copy of the subject's property characteristic printout and copies of documentation from the board of review level complaint file. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The appellant submitted four properties similar to the subject in design and amenities but with many variations in size of living area, location, exterior construction and/or age. These four properties have improvement assessments ranging from \$11.81 to \$13.44 per square foot of living area. The subject's per square foot improvement assessment of \$15.69 falls above the range established by these properties. However, the Board finds of the four properties offered for comparison, three vary greatly from the subject in size of living area, two vary in exterior construction and three are vastly inferior to the subject in age. In addition, the appellant's four comparables are located outside the subject's neighborhood code and their proximity to the subject was not disclosed. After considering adjustments for size, exterior construction and age, as well as other differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by the appellant does not support a change in the subject's assessment. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
