

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Debb
DOCKET NO.: 06-22426.001-R-1
PARCEL NO.: 14-30-111-005-0000

The parties of record before the Property Tax Appeal Board are William Debb, the appellant, by attorney Mitchell L. Klein of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,491
IMPR.: \$ 43,138
TOTAL: \$ 53,629

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story multi-family dwelling of frame construction containing 3,032 square feet of living area. The dwelling is 100 years old, and its features include three apartment units and a partial, finished basement with an apartment.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame dwellings that range in age from 113 to 118 years old. Based on their parcel index numbers, two of the comparables are located on the same block or tax block as the subject, and the remaining one is also in close proximity of the subject. The comparable dwellings range in size from 2,867 to 3,279 square feet of living area. Each comparable has a full, unfinished basement, and two have a garage. The comparables have improvement assessments ranging from \$11.70 to \$13.89 per square foot of living area. The subject's improvement assessment is \$14.23 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame multi-family dwellings that are range from 106 to 118 years old. The comparables all have the same neighborhood and classification codes as the subject, and they are located one-quarter mile from the subject. The dwellings range in size from 2,623 to 2,880 square feet of living area, and they have two or three apartment units. Three comparables have unfinished basements, either full or partial, and one has a full, finished basement with an apartment. Three comparables have a garage, and another has three fireplaces. These properties have improvement assessments ranging from \$14.85 to \$16.60 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. All of the comparables submitted by both parties were very similar to the subject in location, age, style, exterior construction, and foundation. However, the comparables numbered one through three by the board of review were somewhat smaller than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparables and the comparable numbered four by the board of review were the most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$11.70 to \$16.07 per square foot of living area. The subject's improvement assessment of \$14.23 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
