

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Restoration Specialists, LLC  
DOCKET NO.: 06-22427.001-R-1  
PARCEL NO.: 14-28-312-004-0000

The parties of record before the Property Tax Appeal Board are Restoration Specialists, LLC, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 20,810  
**IMPR.:** \$ 75,555  
**TOTAL:** \$ 96,365

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 2,784 square foot parcel improved with a 120-year-old, three-story, mixed-use building of masonry construction containing 5,352 square feet of building area and located in Lake View Township, Cook County. Features of the building include four and one-half bathrooms and a partial-unfinished basement.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of three-story, mixed-use buildings of masonry or frame and masonry construction with the same neighborhood code as the subject. Two of the comparables are located on the same street and block as the subject. The improvements range in size from 5,143 to 6,582 square feet of

building area and range in age from 87 to 100 years old. The comparables contain from three and one-half to seven full bathrooms and a partial-unfinished basement. Two comparables have central air-conditioning. The improvement assessments range from \$11.63 to \$13.06 per square foot of building area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$96,365. The subject's improvement assessment is \$75,555 or \$14.12 per square foot of building area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with three-story, mixed-use buildings of masonry construction with the same neighborhood code as the subject. One of the comparables is located on the same street and block as the subject. The improvements range in size from 3,300 to 4,896 square feet of building area and range in age from 115 to 123 years old. The comparables contain three full bathrooms, central air-conditioning and a partial-unfinished basement. The improvement assessments range from \$17.53 to \$25.16 per square foot of building area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables one and two and the board's comparable one to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, amenities, age and exterior construction. In addition, they are located on the same street and block as the subject and have improvement assessments ranging from \$11.63 to \$25.16 per square foot of building area. The subject's per square foot improvement assessment of \$14.12 falls within the range established by these properties. The Board finds the three remaining comparables less similar to the subject in improvement size and/or location and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
