

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: John Jung
DOCKET NO.: 06-22446.001-R-1
PARCEL NO.: 08-08-406-062-0000

The parties of record before the Property Tax Appeal Board (PTAB) are John Jung, the appellant, by attorney Melissa K. Whitley of Marino & Associates in Chicago, and the Cook County Board of Review (board).

The subject property consists of a 22-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,458 square feet of living area and located in Elk Grove Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement, air-conditioning and a two-car attached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of frame and masonry construction located within four blocks of the subject. The improvements range in size from 2,751 to 2,953 square feet of living area and range in age from 15 to 33 years. The comparables contain two or two and one-half bathrooms and a one-car or two-car attached garage. Three comparables contain a finished or unfinished basement, two comparables have air-conditioning and three comparables contain a fireplace. The improvement assessments range from \$11.27 to \$11.85 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject and should be considered as such by the PTAB. Based on the evidence submitted, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,239
IMPR.: \$ 32,477
TOTAL: \$ 38,716

Subject only to the State multiplier as applicable.

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$38,716. The subject's improvement assessment is \$32,477 or \$13.21 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,400 to 2,553 square feet of living area and range in age from 20 to 26 years. The comparables contain two and one-half bathrooms, a partial or full-unfinished basement, air-conditioning and a two-car attached garage. Two comparables have a fireplace. The improvement assessments range from \$13.77 to \$14.68 per square foot of living area.

At hearing, the board's representative indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The PTAB finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, age, amenities and location and have improvement assessments ranging from \$13.77 to \$14.68 per square foot of living area. The subject's improvement assessment of \$13.21 per square foot of living area is below this range. The appellant's comparables are accorded less weight because they differ from the subject in improvement size and/or amenities. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the PTAB finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
