

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Fredian
DOCKET NO.: 06-22512.001-R-1
PARCEL NO.: 14-20-316-025-0000

The parties of record before the Property Tax Appeal Board are James Fredian, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,665
IMPR.: \$ 64,456
TOTAL: \$ 81,121

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story multi-family dwelling of frame construction containing 3,862 square feet of living area. The dwelling is 119 years old. Features of the home include a full, unfinished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as three-story frame or frame and masonry dwellings that are between 103 and 122 years old. The comparable dwellings range in size from 3,384 to 3,705 square feet of living area. The comparables have full basements, one of which is finished, and two have a two-car garage. The comparables are located on the same street as the subject. The comparables have improvement assessments ranging from \$11.82 to \$12.89 per square foot of living area. The subject's improvement assessment is \$16.69 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of two-story frame dwellings ranging in age from 109 to 118 years old. The dwellings range in size from 3,627 to 4,030 square feet of living area. The comparables have full basements, three of which are finished, three have central air conditioning, one has two fireplaces and three have a garage. One of the comparables is in a subarea of the subject and the others are either one-quarter mile or 1.2 miles from the subject. One is on the same street as the subject. These properties have improvement assessments ranging from \$16.49 to \$21.40 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant noted differences between the subject property and the appellant's comparables with respect to basement finish, central air conditioning, fireplaces and number of bathrooms.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables one and three were considerably smaller than the subject. The board of review's comparables one and two were located a good distance from the subject. Thus, these comparables received reduced weight in the Board's analysis. The appellant's comparable two and the board of review's comparables three and four were most similar to the subject in size and location. They were also similar to the subject in other features, including age, exterior construction and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$12.14 to \$21.40 per square foot of living area. The subject's improvement assessment of \$16.69 per square foot of living area is within the range established by the most similar comparables. Only one of the three most similar comparables had an unfinished basement like the subject. This comparable had an improvement assessment of \$17.61 per square foot and also supports the subject's assessment. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
