

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: David Dickman
DOCKET NO.: 06-22549.001-R-1
PARCEL NO.: 03-06-211-003-0000

The parties of record before the Property Tax Appeal Board are David Dickman, the appellant, by attorney Joseph G. Kusper of Storino, Ramello & Durkin in Rosemont, and the Cook County Board of Review.

The subject property consists of a 25-year-old, two-story, single-family dwelling of frame construction containing 2,704 square feet of living area and located in Wheeling Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables offered by the appellant consist of two-story, single-family dwellings of frame construction located within several blocks of the subject. The improvements range in size from 3,358 to 3,576 square feet of living area and range in age from 20 to 23 years. The comparables contain two and one-half bathrooms, a full-unfinished basement, a fireplace, air-conditioning and a two-car attached garage. The improvement assessments range from \$8.41 to \$11.62 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$46,695.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,673
IMPR.: \$ 38,022
TOTAL: \$ 46,695

Subject only to the State multiplier as applicable.

The subject's improvement assessment is \$38,022 or \$14.06 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 20-year-old, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements contain 2,375 and 2,600 square feet of living area. The comparables contain two and one-half bathrooms, air-conditioning, a fireplace, a full-finished or unfinished basement and a two-car attached garage. The improvement assessments are \$15.55 and \$14.65 per square foot of living area, respectively. In addition, the board submitted copies of documentation from the board of review level complaint file. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Property Tax Appeal Board finds that the parties submitted five properties as comparable to the subject. The Board accords little weight to the appellant's comparables in that they are much larger in size of living area as compared to the subject. Further, the Board finds that the most similar properties in the record are the board's two comparables which have improvement assessments of \$14.65 and \$15.55 per square foot of living area. While the improvement assessment of these two properties does not demonstrate assessment equity, the Board finds it does support the subject's current assessment of \$14.06 per square foot of living area.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
