

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Wayne Williams  
DOCKET NO.: 06-22594.001-R-1  
PARCEL NO.: 02-20-405-001-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Wayne Williams, the appellant, by attorney Joseph G. Kusper of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property with 76,570 square feet of land consists of a 18-year-old, class 2-09, two-story, single-family dwelling of masonry construction containing 7,122 square feet of living area and located in Palatine Township, Cook County. The residence contains four full and one half bathrooms, a full finished basement, air conditioning, fireplaces and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable class 2-04 and class 2-09 properties located within a quarter mile of the subject. The three comparables contain 78,957, 171,757 and 334,715 square feet of land. These properties consist of one and part two-story and two-story, single-family dwellings of frame and masonry or masonry construction and range in age from 12 to 34 years. The comparables have two or three bathrooms, with half-baths and full basements. All homes are air-conditioned and have fireplaces. The comparables have two or three-car garages. The comparables contain between 5,123 and 7,384 square feet of living area and have improvement assessments ranging from \$45,681 to \$74,703 or from \$6.19 to \$11.37 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$111,749, or \$15.69 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable 2-09 properties located within a half mile of the subject. The four comparables range in size from 61,071 to 86,160 square feet of land. The comparables consist of two-story single-family

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR. \$111,749  
TOTAL: \$133,188

dwellings of masonry construction and range in age from nine to 25 years. The comparables contain three, four or five bathrooms with half baths, all with full basements, three finished; all have air conditioning, fireplaces and three-car garages. The comparables contain between 5,526 and 7,095 square feet of living area and have improvement assessments of between \$96,258 and \$122,097 or from \$17.21 to \$19.91 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds the board's comparables one and two and the appellant's comparable three are the comparables most similar to the subject but with some differences in building area. These properties have improvement assessments ranging from \$11.37 to \$19.91 per square foot of living area. The subject's per square foot improvement assessment of \$15.69 is within this range of properties. The PTAB gives less weight to the remaining comparables because they are less similar to the subject in living area or design. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
