

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jerome Fritz
DOCKET NO.: 06-22611.001-R-1
PARCEL NO.: 02-16-106-004-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Jerome Fritz, the appellant, by attorney Joseph G. Kusper of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property with 39,204 square feet of land consists of a 60-year-old, one-story, class 2-04, single-family dwelling of frame construction containing 2,163 square feet of living area and located in Palatine Township, Cook County. The residence contains two and one half bathrooms, a partial basement, air conditioning, fireplaces and a three-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within a quarter mile of the subject. The three comparables contain between 115,652 and 144,619 square feet of land. These properties consist of two-story class 2-78, single-family dwellings of frame or masonry construction and range in age from 28 to 38 years. The comparables have two or three bathrooms, with half-baths and full or partial basements. All homes are air-conditioned and have fireplaces. The comparables have two-car garages. The comparables contain between 2,193 and 3,282 square feet of living area and have improvement assessments ranging from \$26,477 to \$33,849 or from \$10.31 to \$12.15 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$36,358, or \$16.80 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within a quarter mile of the subject. The three comparables range in size from 38,681 to 47,088 square feet of land. The comparables consist of one-story single-family dwellings of frame construction and range in age from 50 to 65

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,272
IMPR. \$36,358
TOTAL: \$42,630

years. The comparables contain one or two bathrooms with some half baths, two with partial basements, one finished; two have air conditioning; all have fireplaces and one or two-car garages. The comparables contain between 1,834 and 2,157 square feet of living area and have improvement assessments of between \$36,941 and \$41,369 or from \$19.02 to \$20.73 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds the board's comparables one, three and four are the comparables most similar to the subject. These properties have improvement assessments ranging from \$19.02 to \$20.73 per square foot of living area. The subject's per square foot improvement assessment of \$16.81 is below this range of properties. The PTAB gives less weight to the remaining comparables because they are less similar to the subject in living area, age, construction materials or building design. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
