

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vince Sanfratello
DOCKET NO.: 06-22668.001-R-1
PARCEL NO.: 09-23-103-102-0000

The parties of record before the Property Tax Appeal Board are Vince Sanfratello, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 11,436
IMPR.: \$ 65,432
TOTAL: \$ 76,868

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 14,295 square foot parcel improved with a four-year-old, two-story, single-family dwelling of masonry construction containing 5,281 square feet of living area and located in Maine Township, Cook County. Features of the residence include three full bathrooms, two half-baths, a full-unfinished basement, central air-conditioning, two fireplaces and a three- car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry, stucco or frame and masonry construction located within 15 blocks of the subject. The improvements range in size from 5,124 to 5,752 square feet of living area and range in age from one to sixteen years old. The

comparables contain from three and one-half to five and one-half bathrooms, a finished or unfinished basement, central air-conditioning, from one to four fireplaces and a multi-car attached garage. The improvement assessments range from \$11.64 to \$13.23 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$107,879. The subject's improvement assessment is \$96,443 or \$18.26 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of stucco, masonry or frame and masonry construction. The improvements range in size from 4,219 to 5,752 square feet of living area and range in age from one to sixteen years old. The comparables contain from three and one-half to five and one-half bathrooms, a finished or unfinished basement, central air-conditioning, from one to four fireplaces and a multi-car garage. The improvement assessments range from \$11.64 to \$14.96 per square foot of living area. The appellant's comparables one, three and four and the board's comparables one, three and four are the same properties. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables to be similar to the subject. These four properties are similar overall to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$11.64 to \$13.23 per square foot of living area. The subject's per square foot improvement assessment of \$18.26 falls well above the range established by these properties. The Board finds the board of review's comparables one, three and four and the appellant's comparables one, three and four are the same properties. The Board further finds the board of review's comparable two differs from the subject in size and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's

Docket No: 06-22668.001-R-1

improvement assessment is inequitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
