

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ted Schab
DOCKET NO.: 06-23378.001-I-1
PARCEL NO.: 12-34-212-011-0000

The parties of record before the Property Tax Appeal Board are Ted Schab, the appellant(s), by attorney Patrick J. Cullerton, of Thompson Coburn LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,125
IMPR.: \$52,452
TOTAL: \$62,577

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 7,500 square foot parcel of land improved with a 34-year old, one-story, masonry, industrial building containing 4,569 square feet of building area. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions on a total of six properties suggested as comparable to the subject and located on the subject's street and block. The data in its entirety reflects that the properties are improved with a one-story, masonry, industrial building. The properties contain 4,569 square feet of building area and range in age from 34 to 35 years and in improvement assessments from \$5.85 to \$13.09 per square foot of building area. The appellant also included the assessor's website pages for the suggested comparables. Based upon this analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$72,117, or \$15.78 per square feet of building area. The board also submitted copies of the property characteristic printouts for the subject as well as raw sales data on 10 properties. The sales occurred between January 2002 and May 2007 for prices ranging from \$187,000 to \$345,000 or from \$39.79 to \$62.30 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted assessment information and copies of the property record cards for the board of review's sales comparables.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule* 1910.65(b). Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has met this burden and that a reduction is warranted.

The appellant presented assessment data on a total of 10 equity comparables. The PTAB finds these comparables similar to the subject. The properties are improved with one-story, masonry, industrial buildings located on the subject's street and block. The properties contain 4,569 square feet of building area and range in age from 34 to 35 years and in improvement assessments from \$5.85 to \$13.09 per square foot of building area. In comparison, the subject's improvement assessment of \$15.78 per square foot of building area is above the range of comparables. The PTAB gives little weight to the board of review's evidence as the data is merely raw sales data. Moreover, the assessment information presented by the appellant in rebuttal supports the appellant's position.

After considering adjustments and the differences in the comparables when compared to the subject, the PTAB finds the subject's per square foot improvement assessment is not supported and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
