

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Geraldo Ramos
DOCKET NO.: 06-23654.001-C-1
PARCEL NO.: 12-29-214-007-0000

The parties of record before the Property Tax Appeal Board are Geraldo Ramos, the appellant(s), by attorney Terrence Kennedy Jr., of Law Offices of Terrence Kennedy Jr. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,542
IMPR.: \$49,506
TOTAL: \$62,048

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 10,452 square foot parcel of land improved with a 41-year old, two-story, masonry, apartment building containing 5,616 square feet of building area. The appellant argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions on a total of five properties suggested as comparable to the subject and located within several block on the same street as the subject. The data in its entirety reflects that the properties are improved with a two-story, masonry, apartment buildings. The properties contain 5,616 square feet of building area and range in age from 38 to 43 years and in improvement assessments from \$3.96 to \$8.82 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$78,192, or \$13.92 per square foot of building area was disclosed. The board also submitted copies of the property characteristic printouts for the subject as well as raw sales data on nine properties. The sales occurred between November 2002 and August 2004 for prices ranging from \$520,000 to \$550,000 or from \$52,000 to \$55,000 per apartment unit. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted a letter and copies of the property record cards for the board of review's sales comparables. The appellant asserts that four of the comparables are exempt properties that are not assessed and four of the properties are identical to the subject and have assessments less than the subject.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule* 1910.65(b). Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has met this burden and that a reduction is warranted.

The appellant presented assessment data on a total of five equity comparables. The PTAB finds these comparables similar to the subject. The properties are improved with a two-story, masonry, apartment buildings. The properties contain 5,616 square feet of building area and range in age from 38 to 43 years and in improvement assessments from \$3.96 to \$8.82 per square foot of building area. In comparison, the subject's improvement assessment of \$13.92 per square foot of building area is above the range of comparables. The PTAB gives little weight to the board of review's evidence as the data is merely raw sales data and finds the rebuttal evidence submitted by the appellant show these comparables support a reduction in the subject's assessed value.

After considering adjustments and the differences in the comparables when compared to the subject, the PTAB finds the

Docket No: 06-23654.001-C-1

subject's per square foot improvement assessment is not supported and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
