

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: James and Ruth Kurtz
DOCKET NO.: 06-23665.001-R-1
PARCEL NO.: 08-10-114-129-0000

The parties of record before the Property Tax Appeal Board are James and Ruth Kurtz, the appellants, by attorney Stephanie Park of Chicago, and the Cook County Board of Review.

The subject property consists of a 12-year-old, two-story, single-family dwelling of frame and masonry construction containing 3,178 square feet of living area and located in Elk Grove Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car attached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of the inequity claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellants also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellants' documents, the four suggested comparables consist of two-story, single-family dwellings of frame, masonry or frame and masonry construction located within the subject's neighborhood. The improvements range in size from 3,108 to 3,182 square feet of living area and range in age from 15 to 52 years. The comparables contain two and one-half, three or three and one-half bathrooms, a finished or unfinished basement and a multi-car garage. Three comparables contain air-conditioning and two comparables have a fireplace. The improvement assessments range from \$10.38 to \$10.77 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$45,617.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,545
IMPR.: \$ 38,072
TOTAL: \$ 45,617

Subject only to the State multiplier as applicable.

The subject's improvement assessment is \$38,072 or \$11.98 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,121 to 3,362 square feet of living area and range in age from 13 to 17 years. The comparables contain two and one-half bathrooms, a partial or full-unfinished basement, air-conditioning, a fireplace and a multi-car garage. The improvement assessments range from \$12.24 to \$12.60 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

The Board finds the appellant's comparables one and two and the board of review's comparables to be the most similar properties to the subject in the record. These six properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$10.38 to \$12.60 per square foot of living area. The subject's per square foot improvement assessment of \$11.98 falls within the range established by these properties. The Board finds the appellants' remaining comparables less similar to the subject in exterior construction and/or age. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have failed to adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
