

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Victor Ayala  
DOCKET NO.: 06-23776.001-R-1  
PARCEL NO.: 14-19-113-013-0000

The parties of record before the Property Tax Appeal Board are Victor Ayala, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 12,725  
**IMPR.:** \$ 49,828  
**TOTAL:** \$ 62,553

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story, multi-family dwelling of frame construction containing 1,424 square feet of living area. The dwelling is 113 years old. Features of the home include a full, unfinished basement. The subject property sold in December 2005 for \$625,000.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame dwellings that range in age from 96 to 108 years old. According to the appellant, the comparables are located one to two blocks from the subject property. The comparable dwellings range in size from 1,476 to 1,802 square feet of living area. Three comparables have full, unfinished basements, and one has a partial, finished basement. One dwelling has central air conditioning, and two have garages. The comparables have improvement assessments ranging from \$28.22 to \$30.72 per square foot of living area. The subject's improvement assessment is \$34.99 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on three comparable properties consisting of two-story frame dwellings that range in age from 103 to 108 years old. According to the board of review, the comparables are located two to three blocks from the subject property. The dwellings contain either 1,267 or 1,408 square feet of living area. Each comparable has a full, unfinished basement, and two dwellings have garages. These properties have improvement assessments ranging from \$35.67 to \$37.37 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

All of the seven comparables submitted by both parties were very similar to the subject in age, style, exterior construction, and location. The comparables numbered one, two, and four by the appellant were somewhat larger than the subject and received reduced weight in the Board's analysis. The comparable numbered three by the board of review was somewhat smaller than the subject and also received reduced weight. The Board finds the comparable numbered three by the appellant and the comparables numbered one and two by the board of review were the most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$29.32 to \$36.16 per square foot of living area. The subject's improvement assessment of \$34.99 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
