

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eric Pulver  
DOCKET NO.: 06-23854.001-R-1  
PARCEL NO.: 14-20-325-006-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Eric Pulver, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 15,294  
**IMPR.:** \$ 94,974  
**TOTAL:** \$ 110,268

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 3,125 square foot parcel improved with a nine-year-old, two-story, single-family dwelling of frame construction containing 2,456 square feet of living area and located in Lake View Township, Cook County. Features of the residence include three and one-half bathrooms, a full-finished basement, central air-conditioning, two fireplaces and a two-car detached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of frame, masonry or frame and masonry construction located within six blocks of the subject. The improvements range in size from 2,108 to 2,948 square feet of living area and range in age from eight to seventeen years old. The comparables contain two and one-half, three or three and one-

half bathrooms, central air-conditioning and a two-car detached garage. Three comparables have a partial-unfinished or full-finished basement and three comparables have fireplaces. The improvement assessments range from \$28.11 to \$35.51 per square foot of living area.

At hearing, the appellant's attorney provided a copy of the board of review's 2007 final decision for the subject property. The board's decision disclosed that the subject's improvement assessment was reduced from \$105,848 to \$94,974. The appellant's attorney argued that the subject's 2007 assessment reduction falls within the same triennial period. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$121,142. The subject's improvement assessment is \$105,848 or \$43.10 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 2,262 to 2,468 square feet of living area and range in age from eight to nine years old. The comparables contain three and one-half or four and one-half bathrooms, a full-finished or unfinished basement, central air-conditioning, one or two fireplaces and a two-car detached garage. The improvement assessments range from \$45.72 to \$47.48 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has overcome this burden.

At hearing, the appellant's attorney provided a copy of the board of review's 2007 final decision for the subject property. The board's decision disclosed that the subject's improvement assessment was reduced from \$105,848 to \$94,974.

The PTAB finds the courts have held that "A substantial reduction in the subsequent year's assessment is indicative of the validity of the prior year's assessment. Hoyne Savings & Loan Assoc. v. Hare, 60 Ill.2d 84, 90, 322 N.E.2d 833, 836 (1974); 400 Condominium Assoc. v. Tully, 79 Ill.App.3d 686, 690, 398 N.E.2d 952, 954 (1<sup>st</sup> Dist. 1979)." Therefore, the Board finds that the board of review's 2007 non-triennial assessment reduction shall apply to the 2006 assessment year for the subject improvement at \$94,974.

The PTAB finds no further reduction based on the appellant's inequity argument is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
