

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nachtrieb  
DOCKET NO.: 06-24171.001-R-1  
PARCEL NO.: 18-04-104-006-0000

The parties of record before the Property Tax Appeal Board are Nachtrieb, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 7,124**  
**IMPR.:    \$ 21,941**  
**TOTAL:    \$ 29,065**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The parties disagree about the design and size of the subject's improvement. The appellant contends it is a one-story dwelling with 1040 square feet of living area. The board of review holds it is a two-story dwelling with 1849 square feet of living area. Based on the photos of the subject provided by the parties and the property characteristics printout submitted by the board of review, the Board finds the subject is a two-story dwelling with 1849 square feet of living area.

The subject property is improved with a two-story dwelling of frame construction containing 1849 square feet of living area. The dwelling is 87 years old. Features of the home include a full, unfinished basement, a fireplace and a one and one-half-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as one-story or one and one-half-story frame or masonry dwellings that range in age from 51 to 104 years old. The comparable dwellings range in size from 1220 to 1248 square feet of living area. Two have full, unfinished basements. The comparables have improvement assessments ranging

from \$17.97 to \$19.06 per square foot of living area. The subject's improvement assessment is \$11.87 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that range in age from 80 to 102 years old. The dwellings range in size from 1792 to 1982 square feet of living area. Features include full basements, one of which is finished, and two-car or two and one-half-car garages. One has central air conditioning, and three have fireplaces. These properties have improvement assessments ranging from \$21.90 to \$22.40 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in size and design. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.90 to \$22.40 per square foot of living area. The subject's improvement assessment of \$11.87 per square foot of living area is much lower than the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
