

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathan Bingham
DOCKET NO.: 06-24262.001-R-1
PARCEL NO.: 14-20-325-035-0000

The parties of record before the Property Tax Appeal Board are Jonathan Bingham, the appellant, by attorney Arnold G. Siegel in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 15,720
IMPR.: \$ 58,609
TOTAL: \$ 74,329**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story multi-family dwelling of frame construction containing 2,156 square feet of living area. The dwelling is 118 years old, and it has two apartment units, a full, unfinished basement, central air conditioning, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on eleven comparable properties described as two-story frame or masonry multi-family dwellings that range in age from 98 to 132 years old. Three of the appellant's comparables are located on the same block as the subject, and the others are located within seven blocks of the subject. The comparable dwellings range in size from 1,704 to 2,472 square feet of living area, and they have two or three apartment units. Eight comparables have full, unfinished basements, and three have a full basement finished with an apartment. Seven comparables have a garage; one has a fireplace; and one has central air conditioning. The comparables have improvement assessments ranging from \$15.13 to \$23.84 per square foot of living area. The subject's improvement assessment is \$27.18 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame or masonry multi-family dwellings that range in age from 105 to 118 years old. The comparables all have the same neighborhood code as the subject, and they are located one-quarter mile from the subject. The dwellings range in size from 2,076 to 2,468 square feet of living area. Each comparable has two apartment units, a full, unfinished basement and a garage. One building has central air conditioning. These properties have improvement assessments ranging from \$27.00 to \$30.44 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold in May 2006 for \$784,500. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of fifteen equity comparables. The Board finds that the comparable most similar to the subject was the comparable numbered one by the board of review. Like the subject, it was a two-story frame apartment building with a full, unfinished basement and central air conditioning, and it was nearly identical to the subject in size. The Board further finds that four of the appellant's comparables were also very similar to the subject in size, age, style, exterior construction, and location. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.03 to \$27.21 per square foot of living area. The subject's improvement assessment of \$27.18 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
