

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marko Jachtorowycz  
DOCKET NO.: 06-24402.001-R-1  
PARCEL NO.: 04-25-117-006-0000

The parties of record before the Property Tax Appeal Board are Marko Jachtorowycz, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 12,636  
**IMPR.:** \$ 99,664  
**TOTAL:** \$ 112,300

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of an 11,700 square foot parcel improved with a one-year-old, two-story, single-family dwelling of masonry construction containing 3,910 square feet of living area and located in Northfield Township, Cook County. Features of the residence include two full bathrooms, two half-baths, a full-unfinished basement, central air-conditioning, two fireplaces and a three-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry, stucco or frame construction located within 4.48 miles of the subject. The improvements range in size from 4,078 to 4,241 square feet of living area and range in age

from one to four years old. The comparables contain three and one-half or four and one-half bathrooms, a full-unfinished basement, central air-conditioning, two or three fireplaces and a multi-car attached garage. The improvement assessments range from \$18.17 to \$23.29 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$112,300. The subject's improvement assessment is \$99,664 or \$25.49 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The board of review's evidence disclosed that the board's comparables three and four have improvement assessments prorated over two parcels; therefore the Board shall use the total combined improvement assessment in its analysis. The suggested comparables are improved with two-story, one-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 4,089 to 4,456 square feet of living area. The comparables contain from three and one-half to five full bathrooms, a full-finished or unfinished basement, central air-conditioning, from one to three fireplaces and a multi-car garage. The improvement assessments range from \$25.49 to \$25.83 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparable one and the board of review's comparables one, two and three to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$18.17 to \$25.83 per square foot of living area. The subject's per square foot improvement assessment of \$25.49 falls within the range established by these properties. The Board finds the three remaining comparables less similar to the subject in improvement size and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment

is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
