

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chung Sang
DOCKET NO.: 06-24403.001-R-1
PARCEL NO.: 04-32-401-088-0000

The parties of record before the Property Tax Appeal Board are Chung Sang, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,774
IMPR.: \$ 43,612
TOTAL: \$ 51,386

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story multi-family dwelling of masonry construction containing 4,928 square feet of living area. The dwelling is 34 years old. Features of the home include six apartment units and a partial, finished basement with an apartment.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story masonry multi-family dwellings that are located in the same block as the subject. The comparable dwellings are either 33 or 34 years old, and each contains 4,928 square feet of living area. Each building has a partial, finished basement with an apartment. The comparables have improvement assessments ranging from \$7.41 to \$7.88 per square foot of living area. The subject's improvement assessment is \$8.85 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of two-story masonry multi-family dwellings that are located on the same block as the subject. The dwellings range in age from 23 to 34 years old, and they contain either 4,446 or 4,928 square feet of living area. Each building has six apartment units and a finished basement, either full or partial, with an apartment. One building has central air conditioning. These properties have improvement assessments ranging from \$7.88 to \$10.65 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold for \$597,500 in March 2005. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant's attorney noted that the comparable numbered one by the board of review is the same property as the appellant's comparable numbered three.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Since both parties presented a common property, the parties presented assessment data on a total of six equity comparables. The comparable numbered four by the board of review was smaller than the subject and received reduced weight in the Board's analysis. The Board finds the remaining comparables submitted by both parties were almost identical to the subject in all respects. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$7.41 to \$10.65 per square foot of living area. The subject's improvement assessment of \$8.85 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
