

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Pamela & Joseph Katcha
DOCKET NO.: 06-24496.001-R-1
PARCEL NO.: 05-28-402-005-0000

The parties of record before the Property Tax Appeal Board are Pamela & Joseph Katcha, the appellants, by attorney Howard W. Melton, of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$34,816
IMPR: \$93,994
TOTAL: \$128,810

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of frame construction containing 2,881 square feet of living area. The dwelling is 68 years old. Features of the home include a full, unfinished basement, central air conditioning, 3 fireplaces and a 1-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 2-story masonry or frame and masonry dwellings that range in age from 67 to 78 years old. The comparable dwellings range in size from 3,214 to 3,714 square feet of living area. All comparables feature full or partial basements, of which three are finished. All have fireplaces and 2-car garages. Two comparables feature central air conditioning. The comparables have improvement assessments ranging from \$21.81 to \$27.53 per square foot of living area. The subject's improvement assessment is \$32.63 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story masonry dwellings that range in age from 68 to 85 years old. The dwellings range in size from 2,347 to 3,291 square feet of living area. All comparables feature full, finished basements and fireplaces. Three have central air conditioning, and two have 1 or 2-car garages. These properties have improvement assessments ranging from \$29.57 to \$39.88¹ per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

None of the comparables submitted by either party featured the same external construction as the subject. All were 2-story structures similar in location, age and features to the subject. However, the Board finds comparables #3 and #4 submitted by the appellant and comparables #1, #3 and #4 submitted by the board of review were most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$24.00 to \$39.88 per square foot of living area. The subject's improvement assessment of \$32.63 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

¹ The board of review used 2007 assessments to calculate improvement assessments per square foot. The Board used 2006 assessments to calculate improvement assessments, resulting in smaller numbers than the board of review presented in their assessment grid.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
