

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jadwiga Berlinska
DOCKET NO.: 06-24610.001-R-1
PARCEL NO.: 02-12-200-058-0000

The parties of record before the Property Tax Appeal Board are Jadwiga Berlinska, the appellant, by attorney Michael E. Crane of Crane and Norcross, Chicago, and the Cook County Board of Review.

The subject property consists of a 31-year-old, three-story multi-family dwelling of masonry construction containing 6,435 square feet of living area with six full bathrooms. The subject is built on slab and located in Palatine Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of two-story or three-story, multi-family dwellings of masonry or frame and masonry construction. One of the comparables has the same neighborhood code as the subject. The improvements range in size from 6,372 to 6,840 square feet of living area and range in age from 13 to 27 years. The comparables contain six full bathrooms while one comparable has six additional half-baths. Two comparables have air-conditioning as well as a four-car garage. The improvement assessments range from \$6.93 to \$7.87 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$57,685. The subject's improvement assessment is \$55,465 or \$8.62 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 2,220
IMPR.: \$ 55,465
TOTAL: \$ 57,685

Subject only to the State multiplier as applicable.

The suggested comparables are improved with three-story, 31-year-old, multi-family dwellings of masonry construction located on the same street and block as the subject. The improvements range in size from 6,435 to 6,437 square feet of living area. The comparables contain six full bathrooms. The improvement assessments range from \$8.62 to \$8.63 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Pursuant to Pace Realty Group, Inc., v. The Property Tax Appeals Board, 306 Ill. App. 3d 718, 728, 713 N.E.2d 1249, 239 Ill. Dec. 399 (1999), the Appellate Court found that in determining what properties are truly comparable, there is error as a matter of law when the selection of a comparable includes a property which has also received the same contested assessment. Further, the Court stated that conducting a uniformity analysis in such a manner will lead to absurd results and will render the assessment appeal process meaningless. Therefore, the Board shall accord no weight to suggested comparables which are: sited within the subject's complex, also under appeal, and reflect a similarly contested assessment. Thereby, comparable three submitted by the board of review will be accorded no weight in this case's analysis.

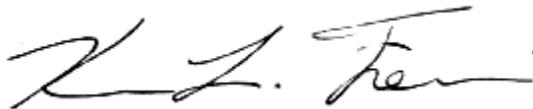

The Board finds the appellant's comparable one and the board of review's comparables one and two to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, location, amenities and age and have improvement assessments ranging from \$7.87 to \$8.63 per square foot of living area. The subject's per square foot improvement assessment of \$8.62 falls within the range established by these properties. The Board finds the appellant's remaining comparables less similar to the subject in improvement size, design and/or location. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
