

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Maribel Medina
DOCKET NO.: 06-24626.001-R-1
PARCEL NO.: 19-06-223-004-0000

The parties of record before the Property Tax Appeal Board are Maribel Medina, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,149
IMPR.: \$ 15,270
TOTAL: \$ 18,419

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half story multi-family dwelling of frame construction containing 1,391 square feet of living area. The dwelling is 64 years old, and its features include a crawl-space foundation, two apartment units, and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as one and one-half or two-story frame or masonry multi-family dwellings that range in age from 52 to 82 years old. The appellant's comparables all have the same neighborhood code as the subject. The comparable dwellings range in size from 1,730 to 2,030 square feet of living area. Two comparables have full, unfinished basements, and one has a slab foundation. Each comparable has two apartment units and a garage, and one dwelling has central air conditioning. The comparables have improvement assessments ranging from \$7.42 to \$9.60 per square foot of living area. The subject's improvement assessment is \$10.98 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one and one-half or two-story frame or masonry multi-family dwellings that range in age from 53 to 85 years old. The comparables all have the same neighborhood code as the subject. The dwellings range in size from 1,468 to 1,641 square feet of living area. Three comparables have full, unfinished basements, and one has a full, finished basement with an apartment. Each comparable has two apartment units and a garage, and two dwellings have central air conditioning. These properties have improvement assessments ranging from \$11.32 to \$11.89 per square foot of living area. The board of review's evidence also disclosed that the subject property sold for \$185,000 in March 2004, and the comparable numbered three sold for \$319,000 in February 2006. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables and the comparables numbered one through three by the board of review were larger in size than the subject. In addition, the appellant's comparable numbered three and the comparable numbered three by the board of review differed from the subject in exterior construction. As a result, these six comparables received reduced weight in the Board's analysis. The Board finds the comparable numbered four by the board of review was the most similar to the subject in size and exterior construction. It was also generally similar to the subject in age. Due to its similarities to the subject, this comparable received the most weight in the Board's analysis. It had an improvement assessment of \$11.89 per square foot of living area. The subject's improvement assessment of \$10.98 per square foot of living area is supported by this assessment. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
