

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rocco Antonucci
DOCKET NO.: 06-24656.001-R-1
PARCEL NO.: 03-32-325-010-0000

The parties of record before the Property Tax Appeal Board are Rocco Antonucci, the appellant, by attorney Joanne Elliott of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 16,800
IMPR.: \$ 111,035
TOTAL: \$ 127,835**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 5,328 square feet of living area. The dwelling is three years old. Features of the home include a full, unfinished basement, central air conditioning, and a four-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties described as two-story frame, masonry, or frame and masonry dwellings that range in age from four to twelve years old. According to the appellant, the comparables do not have the same neighborhood code as the subject, but they are all located in the same municipality as the subject. The comparable dwellings range in size from 5,031 to 8,072 square feet of living area. Each dwelling has a full, unfinished basement, central air conditioning, and one or two fireplaces. Six comparables have garages. The comparables have improvement assessments ranging from \$5.63 to \$10.04 per square foot of living area. The subject's improvement assessment is \$20.84 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on one comparable property that has the same neighborhood code as the subject property. The comparable property is a four-year old, two-story dwelling of masonry construction. The dwelling has 5,156 square feet of living area, a full, unfinished basement, central air conditioning, two fireplaces, and a three-car garage. It has an improvement assessment of \$24.25 per square foot of living area. As part of its evidence, the board of review also disclosed that the subject property sold for \$1,295,000 in December 2004. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant's attorney argued that the board of review had only submitted one comparable compared to the seven offered by the appellant.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. All of the comparables submitted by both parties were very similar to the subject in age, style, and most features, and they were generally similar to the subject in exterior construction. However, two of the appellant's comparables were much larger than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparables numbered two through six and the comparable submitted by the board of review were most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$9.23 to \$24.25 per square foot of living area. The subject's improvement assessment of \$20.84 per square foot of living area falls within the range established by the most similar comparables. The comparable assessed at the high end of the range was most similar to the subject in location. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
