

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robin Jackson
DOCKET NO.: 06-24892.001-R-1
PARCEL NO.: 24-24-220-041-0000

The parties of record before the Property Tax Appeal Board are Robin Jackson, the appellant, and the Cook County Board of Review.

The subject property consists of an 18-year-old, multi-level, single-family dwelling of frame and masonry construction with one and one-half bathrooms, a partial-finished basement, air-conditioning, a fireplace and a two-car detached garage. The appellant's petition indicates the subject dwelling contains 1,349 square feet of living area but provided no documentation. The board of review's documents indicate the subject contains 1,424 square feet.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of multi-level, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,427 to 1,500 square feet of living area and range in age from 19 to 50 years. The comparables contain one or one and one-half bathrooms, a partial-finished basement and a one-car or two-car detached garage. One comparable has air-conditioning and a fireplace. The improvement assessments range from \$16.69 to \$17.87 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$31,761. In

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,129
IMPR.: \$ 26,632
TOTAL: \$ 31,761

Subject only to the State multiplier as applicable.

support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,378 to 1,503 square feet of living area and range in age from 16 to 19 years. The comparables contain two or two and one-half bathrooms, a partial-finished basement, air-conditioning and a fireplace. Two comparables have a two-car garage. The improvement assessments range from \$19.76 to \$20.45 per square foot of living area.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The first issue before the Board is the correct square footage attributable to the subject improvement. The Board finds that the appellant failed to substantiate the claim that the subject's square footage is different than the public record presented by the board of review. Consequently, the Board finds the subject contains 1,424 square feet of living area. The subject's improvement assessment is \$26,632 or \$18.70 per square foot of living area, based on 1,424 square feet.

Next, the Board finds the appellant's comparable one and the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$16.69 to \$20.45 per square foot of living area. The subject's per square foot improvement assessment of \$18.70, based on 1,424 square feet of living area, falls within the range established by these properties. The Board finds the appellant's remaining comparables differ from the subject in age and/or amenities. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
