

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Skowron
DOCKET NO.: 06-24916.001-R-1
PARCEL NO.: 18-07-116-026-0000

The parties of record before the Property Tax Appeal Board are Mark Skowron, the appellant(s), by attorney Joseph G. Kuser, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 24,051
IMPR.: \$ 70,296
TOTAL: \$ 94,347

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 18,790 square foot parcel improved with a 16-year-old, two-story, single-family dwelling of masonry construction containing 3,667 square feet of living area and located in Lyons Township, Cook County. Features of the residence include three full bathrooms, two half-baths, a full-finished basement, central air-conditioning, two fireplaces and a two and one-half car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of stucco, masonry or frame and masonry

construction located within several blocks of the subject. The improvements range in size from 4,083 to 5,752 square feet of living area and range in age from seven to 49 years. The comparables contain three and one-half or four and one-half bathrooms, one or three fireplaces and a two-car or three-car attached garage. Two comparables contain a full-finished or unfinished basement and air-conditioning. The improvement assessments range from \$13.74 to \$16.93 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$94,347. The subject's improvement assessment is \$70,296 or \$19.17 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,199 to 3,686 square feet of living area and range in age from 13 to 27 years. The comparables contain from two and one-half to four and one-half bathrooms, a finished or unfinished basement, central air-conditioning, from one to three fireplaces and a two-car garage. The improvement assessments range from \$20.18 to \$21.21 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$20.18 to \$21.21 per square foot of living area. The subject's per square foot improvement assessment of \$19.17 falls below the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size, age and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the

Docket No: 06-24916.001-R-1

Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
