

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Tom & Lisa Nars
DOCKET NO.: 06-25014.001-R-1
PARCEL NO.: 03-02-302-004-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Tom & Lisa Nars, the appellants, by attorney Melissa K. Whitley of Marino & Associates in Chicago, and the Cook County Board of Review (board).

The subject property consists of a seven-year-old, two-story, single-family dwelling of frame and masonry construction containing 4,765 square feet of living area. Features of the residence include three full bathrooms, air-conditioning, a fireplace and a three-car attached garage. The subject is built with crawl space and located in Wheeling Township, Cook County.

The appellants, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellants' documents, the four suggested comparables consist of two-story, single-family dwellings of frame, masonry or frame and masonry construction located within seven miles of the subject. The improvements range in size from 3,926 to 4,289 square feet of living area and range in age from one to 56 years. The comparables contain from two to three and one-half bathrooms. Three comparables contain an unfinished basement, two comparables have air-conditioning and three comparables contain one or two fireplaces as well as a multi-car attached garage. The improvement assessments range from \$2.11 to \$7.38 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$62,933. The subject's improvement assessment is \$55,541 or \$11.66 per square foot of living area. In support of the assessment the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,392
IMPR.: \$ 55,541
TOTAL: \$ 62,933

Subject only to the State multiplier as applicable.

board submitted property characteristic printouts and descriptive data on one property suggested as comparable to the subject. The suggested comparable is improved with a two-story, three-year-old, 3,928 square foot, single-family dwelling of frame and masonry construction with the same neighborhood code as the subject. The comparable contains two full bathrooms, a full-unfinished basement, air-conditioning and a three-car garage. The improvement assessment is \$14.06 per square foot of living area.

At hearing, the board's representative indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

Both parties submitted a total of five properties similar to the subject in construction and design but with many variations in living area, age and/or location. These five properties have improvement assessments ranging from \$2.11 to \$14.06 per square foot of living area. The subject's per square foot improvement assessment of \$11.66 falls within the range established by these properties. However, along with other differences, the Board finds the five comparables inferior to the subject in size. In addition, three of the comparables range in age from 48 to 56 years, whereas, the subject is only seven years old. Finally, the appellant's comparables are located between 2.5 and seven miles from the subject. After considering adjustments for size, location and age, as well as other differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the PTAB finds the appellants have failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
