

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jordan Kaiser
DOCKET NO.: 06-25033.001-R-1
PARCEL NO.: 14-19-123-017-0000

The parties of record before the Property Tax Appeal Board are Jordan Kaiser, the appellant, by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,364
IMPR.: \$ 68,138
TOTAL: \$ 81,502

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 4,125 square foot parcel improved with a 95-year-old, one and one-half story, single-family dwelling of masonry construction containing 1,773 square feet of living area and located in Lake View Township, Cook County. Features of the residence include one bathroom, a full-finished basement, central air-conditioning and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on six properties suggested as comparable to the subject. The appellant also submitted a three-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the six suggested comparables consist of one and one-half story, single-family dwellings of frame construction with the same neighborhood code as the subject. Two

of the comparables are located on the same street as the subject. The improvements range in size from 1,469 to 1,787 square feet of living area and range in age from 102 to 108 years old. The comparables contain from one to two and one-half bathrooms and a full-finished or unfinished basement. Three comparables have central air-conditioning and five comparables have a one-car or two-car detached garage. The improvement assessments range from \$30.19 to \$34.02 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$81,502. The subject's improvement assessment is \$68,138 or \$38.43 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with one-story, 98 or 111-year-old, single-family dwellings of frame or masonry construction with the same neighborhood code as the subject. The improvements contain 1,518 and 1,637 square feet of living area. The comparables contain one and one-half or two full bathrooms and a full-unfinished basement. The improvement assessments are \$47.32 and \$40.42 per square foot of living area, respectively.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables one, two, three, four and five and the board of review's comparable two to be the most similar properties to the subject in the record. These six properties are similar to the subject in improvement size, design, amenities, age and location and have improvement assessments ranging from \$30.19 to \$40.42 per square foot of living area. The subject's per square foot improvement assessment of \$38.43 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and accorded less weight. The Board further finds the board of review's comparable two is the only property in the record similar to the subject in exterior construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
