

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Collette Connelly
DOCKET NO.: 06-25065.001-R-1
PARCEL NO.: 14-28-111-009-0000

The parties of record before the Property Tax Appeal Board are Collette Connelly, the appellant, by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 18,798
IMPR.: \$ 96,662
TOTAL: \$ 115,460

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 4,422 square foot parcel improved with a 109-year-old, two-story, single-family dwelling of masonry construction containing 3,040 square feet of living area and located in Lake View Township, Cook County. Features of the residence include three full bathrooms, three half-baths, a full-finished basement and a one and one-half car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a three-page brief, Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story or three-story, single-family dwellings of frame, masonry or frame and masonry

construction with the same neighborhood code as the subject. The improvements range in size from 2,888 to 4,806 square feet of living area and range in age from 93 to 133 years old. The comparables contain two, three or three and one-half bathrooms, a finished or unfinished basement and central air-conditioning. Two comparables have fireplaces. The improvement assessments range from \$22.83 to \$28.28 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$115,460 was disclosed. The subject's improvement assessment is \$96,662 or \$31.80 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 102 or 112-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements contain 2,454 and 2,840 square feet of living area. The comparables contain two or two and one-half bathrooms, a full-unfinished basement and a two-car detached garage. One comparable has a fireplace. Each improvement assessment is \$31.80 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparable five and the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, amenities, age and location and have improvement assessments ranging from \$26.83 to \$31.80 per square foot of living area. The subject's per square foot improvement assessment of \$31.80 falls within the range established by these properties. The Board finds the appellant's remaining comparables less similar to the subject in improvement size, design and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
