

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Kerry Kost  
DOCKET NO.: 06-25067.001-R-1  
PARCEL NO.: 27-05-307-006-0000

The parties of record before the Property Tax Appeal Board are Kerry Kost, the appellant, and the Cook County Board of Review.

The subject property consists of a four-year-old, two-story, single-family dwelling of frame and masonry construction containing 3,931 square feet of living area and sited on a 16,441 square foot lot. Features of the residence include two and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a three-car attached garage. The subject is located in Orland Township, Cook County.

The appellant appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page letter, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, six or ten-year-old, single-family dwellings of masonry or frame and masonry construction located within two blocks of the subject. The improvements range in size from 3,862 to 4,424 square feet of living area. The comparables contain three and one-half bathrooms, a full-unfinished basement, one or two fireplaces and a three-car attached garage. Three comparables have air-conditioning. The improvement assessments range from \$9.75 to \$12.24 per square foot of living area. Based on the evidence submitted, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 14,468  
IMPR.: \$ 48,129  
TOTAL: \$ 62,597

Subject only to the State multiplier as applicable.

PTAB/rfd5919

appellant requested a reduction in the subject's improvement assessment.

The appellant also requested a reduction in the subject's land assessment, however, failed to provide an analysis in support of this claim.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$62,597. The subject's improvement assessment is \$48,129 or \$12.24 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, one or four-year-old, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,867 to 4,076 square feet of living area. The comparables contain three and one-half or four full bathrooms, a full-unfinished basement, air-conditioning, one or two fireplaces and a three-car attached garage. The improvement assessments range from \$12.25 to \$12.76 per square foot of living area.

At hearing, the board's representative stated that the board's comparables are similar to the subject in size, design, age, amenities and location and indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables one and three and the board of review's comparables to be the most similar properties to the subject in the record. These five properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$10.23 to \$12.76 per square foot of living area. The subject's per square foot improvement assessment of \$12.24 falls within the range established by these properties. The Board finds the appellant's

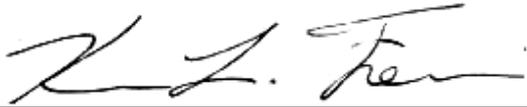

remaining comparables less similar to the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. The appellant failed to provide an analysis supporting a reduction in the subject's land assessment. As a result, the Board also sustains the land assessment assigned to the subject property.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
